

# CABLE MANAGEMENT SYSTEM

## OUR VISION

We aspire to be the global leader in the steel industry by being the most reliable and innovative value added steel manufacturing, services & solution provider.

## OUR MISSION

To maximize value for our client base globally, we commit ourselves to supply high quality steel products, services and solutions. Utilizing innovative technologies and solutions and making it possible through a team of well experienced professionals. Our focus is continuous improvement in product quality and client satisfaction.

## OUR POLICY

The company management maintains a Korean style of management where ideas pass on from shop floor level right up to the top management's desk. We make sure that right thing is at the right place at the right time. This helps us to manufacture our products with high precision, meeting all the specifications. We have the capability to deliver and meet urgent needs of our customers and have built their confidence by providing high quality products on time using our automated machines. Through our subsidiary in UAE, we target to reach larger client base across the MENA region. We believe in continuous improvement and follow the business principle focused towards customer satisfaction by providing quality products and solutions and on time delivery. Our prime focus is to serve our customers better.

## PREFACE

Cheol offers a comprehensive range of a complete cable management system. The system offered comprises;

- Cheol Cable Ladder as per BSEN 61537:2002
- Cheol Cable Tray as per BSEN 61537:2002
- Cheol Cable Trunking as per BSEN 10327:2004
- Cheol Metal Framing Channel as per BSEN 6946:1988

Cheol Cable Management systems full range of products is ISO 9001:2008 Certified. We have a fully equipped factory with the design, production and quality control departments. The load capabilities, support span requirements, deflection criteria, site installation problems have been carefully considered by our design department while designing the entire product ranges. All our products are manufactured using the latest technology which helps us to maintain a unique quality product throughout the manufacturing process. Entire Cheol cable management system has been designed to minimize welding. Last 25 years of research and development in this field has helped us to develop a system which has taken into account all the requirements of construction sites especially in Asia and the MENA region.

## CABLE LADDER

Cheol Cable Ladders are manufactured in accordance to BSEN 61537:2002 using our state of the art manufacturing facility. We offer a wide range of Cable Ladder as per your site conditions.
